## **ABSTRACE**

Earthcrypt Engine facilitates cryptocurrency storage, transactions, payments and exchange for small crypto assets.

The application supports as much as ten other assets providing for spending flexibility.

Earthcrypt tokens are locked up monthly for staking payout in Ethereum.

Bitcoin wallet will integrate Segwit to reduce withdrawal charges .

Earthcrypt payment card allows users to do online transaction for small spends or payment.

There is a limit to the amount of assets you can store on our platform because our scope will only cover small assets for daily spends creating more transactions.

No limit to the amount of ECR TOKENS storage because we encourage out tokens to have less circulatory supply.

## FEATURES OF EARTHCRIPT

- ❖ High security. Wallets highly secured with 2FA options for both email and authenticator enabled. Cold storage also considered.
- ❖ Staking of ECR tokens .This will help reduce supply and give ECR price stability. Payment of staking is in Eth .Our reserve fund will be traded until the platform is completely setup.
- ❖ ECR application supports up to ten other cryptocurrencies.
- ❖ Withdrawal of third party assets are free except the transaction charges mined by the network.
- ❖ Earthcrypt wallet only store small assets. This will ensure we only attract daily spenders to create more transactions. Only ECR staking does not have a cap.
- ❖ Fiat payment integration.
- ❖ ECRcard online payment.

## MARKET POTENTIAL

Earthcrypt market is dependent on the growing market demands for crypto based assets which is perceived to be on its early adoption.

With cryptocurrency growth forecast at 1 trillion dollars more adoption is expected and we are positioning our platform leverage on it .

Exchanges around the world are adding thousands of users daily even after Bitcoin recent pullback in price.

The huge surge in demand for blockchain assets has created enormous commercial and market opportunities for start-ups.

Earthcrypt product is unique because it provides easy and convenient way to spend and store your crypto assets and it will be licensed globally to integrate Fiat and other payments.

We offer small asset wallet system with low transactions charges earthcrypt demand will increase because there are more lower number of transactions in entire crypto space.

## PRICE PREDICTION

We are very optimistic that ECR token will receive a global acceptance and therefore set our price target of 1cent in one year.

Reasons:

1. Buy back plan.
2. We will burn some tokens periodically.
3. The supply of ECR token will equate to the supply of Ethereum according to our team set out plan.

## CAVEAT

Crypto assets are very volatile and we do not offer any guarantee on future price and returns.
